

7 Publications

J. Badziak, S. Jabłoński, M. Kubkowska, P. Parys, M. Rosiński, J. Wołowski, A. Szydłowski, P. Antici, J. Fuchs, and A. Mancic. *Studies on proton beam generation for fast ignition-related applications*, 35th EPS Conference on Plasma Phys. Hersonissos 9-13 June 2008 ECA O-4.043(32), 2008

J. Badziak, S. Jabłoński, P. Parys, M. Rosiński, J. Wołowski, A. Szydłowski, P. Antici, J. Fuchs, and A. Mancic. *Ultraintense proton beams from laser-induced skin-layer ponderomotive acceleration*, J. Appl. Phys., 063310-16(104), 2008

J. Badziak, A. Kasperczuk, P. Parys, T. Pisarczyk, M. Rosiński, L. Ryć, J. Wołowski, R. Suchańska, J. Krasa, E. Krousky, L. Laska, K. Masek, M. Pfeifer, K. Rohlena, J. Skala, J. Ullschmied, L.J. Dhareshwar, I.B. Foldes, T. Suta, A. Borrielli, A. Mezzasalma, L. Torrasi, and P. Pisarczyk. *The effect of high-Z dopant on laser-driven acceleration of a thin plastic target*, Appl. Phys. Lett., (92):211502/1-3, 2008

J. Badziak, A. Kasperczuk, P. Parys, T. Pisarczyk, M. Rosiński, L. Ryć, J. Wołowski, R. Suchańska, J. Krasa, E. Krousky, L. Laska, K. Masek, M. Pfeifer, K. Rohlena, J. Skala, J. Ullschmied, L.J. Dhareshwar, I.B. Foldes, T. Suta, A. Borrielli, A. Mezzasalma, L. Torrasi, and P. Pisarczyk. *The effect of high-Z dopant on laser-driven acceleration of a thin plastic target*, Appl. Phys. Lett., 211502(92), 2008

P. Berczyński, Yu.A. Kravtsov, and G. Zeglinski. *Gaussian beam diffraction in inhomogeneous and nonlinear media: analytical and numerical solutions by complex geometrical optics.*, Cent. Eur. J. Phys., 3(6):563, 2008

B. Bieg, J. Kirkiewicz. *Polarization properties of a cube-corner retroreflector with complex reflection coefficient*, Proc. SPIE, (7141):71410M-1, 2008

J. Błocki. *A deformation analysis for the lower shell of Module 1, Module 2, Module 3 and Module 4 by use of the Finite Element Method*, Report IPP Greifswald, T0010.0(1EDH08):18, 2008

J. Błocki. *A deformation analysis for the outer vessel modules supported on the platform and transported on a semi-trailer*, Report IPP Greifswald, T0021.0(1EDH08):23, 2008

J. Błocki. *A deformation analysis for the upper shell of Module 1, Module 2, Module 3 and Module 4 by use of the Finite Element Method*, Report IPP Greifswald, T0011.0(1EDH08):27, 2008

J. Honrubia, M. Temporal, J. Badziak, and S. Jabłoński. *Fast ignition of fusion targets induced by ion beams*, EPS Conference on Plasma Phys. Hersonissos 9-13 June 2008 ECA, P-5.125(32), 2008

L. Jakubowski, M.J. Sadowski, J. Stanisławski, K. Malinowski, J. Żebrowski, M.J. Jakubowski, V. Weinzettl, J. Stockel, M. Vacha, M. Peterka et al. *The Cherenkov detector for measurements of fast electrons in CASTOR tokamak*, AIP Conf. Proc., (996):219-223, 2008

A. Kasperczuk, T. Pisarczyk, M. Kalal, M. Martinkova, J. Ullschmied, E. Krousky, K. Masek, M. Pfeifer, K. Rohlena, J. Skala, and P. Pisarczyk. *PALS laser energy transfer into solid targets and its dependence on the lens focal point position with respect to the target surface*, Laser and Particle Beams, (26):189-196, 2008

- A. Kasperczuk, T. Pisarczyk, S.Yu. Guskov, J. Ullschmied, E. Krousky, K. Masek, M. Pfeifer, K. Rohlena, J. Skala, M. Kalal, V. Tikhonchuk, and P. Pisarczyk. *Laser energy transformation to shock waves in multi-layer flyers*, Radiation Effects and Defects in Solids, (163):519-533, 2008
- Yu.A. Kravtsov, B. Bieg, and Z.H. Czyz. *Complex Polarization Angle: Basic Properties and Applications in Microwave Plasma Diagnostics*, International Radar Symposium IRS-2008, Wroclaw, 37, 2008
- Yu.A. Kravtsov, B. Bieg, K.Yu. Bliokh, and M. Hirsch. *Basic Theoretical Methods in Microwave Plasma Polarimetry: Quasi-isotropic Approximation, Stokes Vector Formalism and Complex Polarization Angle Method*, AIP Conf. Proc., (993):143, 2008
- Yu.A. Kravtsov, and B. Bieg. *Evolution of the polarization of electromagnetic waves in weakly anisotropic inhomogeneous media – a comparison of quasi-isotropic approximations of the geometrical optics method and the Stokes vector formalism.*, Cent. Eur. J. Phys., 3(6):563, 2008
- Yu.A. Kravtsov, B. Bieg. *Polarization transformations in the vicinity of orthogonality point in the inhomogeneous magnetized plasma*, Proc. SPIE, (7141):71410K-1, 2008
- Yu.A. Kravtsov, M.V. Tinin, and K. Makles. *Super Fresnel resolution of phase screen fine structure: tomography-like approach*, Proc. SPIE, (7141):714120-1, 2008
- A. Murari, R. Prokopowicz, et al.. *Measuring the Radiation Field and Radiation Hard Detectors at JET: Recent Developments*, Nucl. Instr. Meth. A, (in press), 2008
- V.V. Plyusnin, L. Jakubowski, J. Żebrowski, H. Fernandes, C. Silva, K. Malinowski, P. Duarte, M. Rabiński, and M.J. Sadowski. *Use of Cherenkov-type detectors for measurements of runaway electrons in the ISTTOK tokamak*, Rev. Sci. Instrum., 10F505(79), 2008
- R. Prokopowicz, M. Scholz, A. Szydłowski, S. Popovichev and JET EFDA contributors. *Measurements of Neutron Yield from Deuterium Plasmas at JET by Activation Techniques*, AIP Conf. Proc., (993):251-254, 2008
- M.J. Rubel, G. Sergienko, A. Kreter, A. Pospieszczyk, M. Psoda, and E. Wessel. *An overview of fuel retention and morphology in a castellated tungsten limiter*, Fusion Engineering and Design, (83):1049-1053, 2008
- L. Ryć, L. Dobrzański, F. Dubecky, J. Kaczmarczyk, M. Pfeifer, F. Riesz, W. Słysz, and B. Surma. *Application of MSM InP detectors to the measurements of pulsed X-ray radiation*, Radiation Effects and Defects in Solids, 163:559-567, 2008
- M.J. Sadowski, E. Składnik-Sadowska, K. Malinowski, J. Wołowski, A.K. Marchenko, A.V. Tsarenko, *Investigation of laser interaction with tungsten target by means of time-resolved optical spectroscopy*, Radiation Effects and Defects in Solids, (163):569-577, 2008
- M. Scholz, B. Bieñkowska, M. Chernyshova, V.A. Gribkov, S. Jednorog, Z. Kalinowska, L. Karpiński, M. Paduch, R. Prokopowicz, and A. Szydłowski. *Fast-Neutron Source Based on Plasma-Focus Device*, AIP Conf. Proc., (993):345-348, 2008

A. Szydłowski, A. Malinowska, M. Jaskola, A. Korman, M.J. Sadowski, G. VanWassenhove, B. Schweer and the TEXTORteam, and A. Gałkowski. *Application of Solid State Nuclear Track Detectors in TEXTOR Experiment for Measurements of Fusion-Reaction Protons*, AIP Conf. Proc., (993):247, 2008

A. Szydłowski, A. Malinowska, M.J. Sadowski, M. Jaskola, A. Korman, G. Van Wasenhove, G. Bonheure, B. Schweer, TEXTOR Team, A. Gałkowski, K. Małek. *Measurement of fusion-reaction protons in TEXTOR tokamak plasma by means of solid-state nuclear track detectors of the CR-39/PM-355 type*, Radiat. Meas., (43):S290-S294, 2008

M.V. Tinin, and Yu.A. Kravtsov. *Super-Fresnel resolution of plasma inhomogeneities by electromagnetic sounding.*, Plasma Phys. Contr. F., 3(50):035010, 2008

L. Torrisi, D. Margarone, L. Laska, M. Morinelli, E. Milani, G. Verona-Rinati, S. Cavallaro, L. Ryc, J. Krasa, K. Rohlena, and J. Ullschmied. *Monocrystalline diamond detector for ionizing radiation emitted by high temperature laser-generated plasma*, J. Appl. Phys., 103:083106, 2008

J. Wołowski, J. Badziak, A. Czarnecka, P. Parys, M. Pisarek, and M. Rosiński. *The laser-produced plasma as a modern repetitive ion source for technological applications*, ECA Proc. of 35th EPS Conf. on Plasma Phys., Hersonissos, 9-13 June 2008, (32), P-1.127, 2008

J. Żebrowski, L. Jakubowski, M.J. Sadowski, K. Malinowski, M.J. Jakubowski, V. Weinzettl, J. Stockel, M. Vacha, and M. Peterka. *Diagnostics of fast electrons within CASTOR tokamak by means of a modified Cherenkov-type probe*, AIP Conf. Proc., (993):255-258, 2008
