

9 Seminars

- Marcin Rosiński (IPPLM), January 18. IPPLM
Optical calibration to establish alignment of the High Resolution Thomson Scattering in JET
- Sławomir Jabłoński (IPPLM), March 3. Meeting on X-Ray Diagnostics for W7-X in IPP in Greifswald, Germany
Concept for SX Multi-Foil T_e / Spectrometry System
- Andrzej Gałkowski (IPPLM), April 16. Institute of Nuclear Chemistry and Technology
The project of ITER fusion reactor in Cadarache
- Jacek Sosnowski (Institute of Electrotechnologies), May 17. IPPLM
Selected problems of the application of superconducting materials in fusion reactor
- Boghdan Bieg, Yuri A. Kravtsov (MUS), June 5. 2007. MUS
Participation of Maritime University of Szczecin in ITER project
- Leszek Ryc (IPPLM), October 2. SINS
X-ray spectroscopy and imaging
- Jerzy Wołowski (IPPLM), November 28. Institute of Optoelectronic, Military University of Technology
Controlled nuclear fusion – source of energy for future
- Krzysztof Drozdowicz (INP), December 10. INP
Detection of the delayed neutrons from activation of fissionable materials in the neutron field at fusion-plasma devices
